

The Pan American Congress of Applied Mechanics (PACAM) was a biennial event until 2012 and has been an annual event since then. The aim of the congress is to promote progress in the broad field of mechanics by (1) exposing engineers and scientists, as well as advanced graduate students, to new research developments, methods, and problems in mechanics and (2) providing broad opportunities for personal interactions through means of formal presentations and informal conversations.

PACAM XIV will be held in Santiago, Chile, hosted by Universidad de Chile.

Some of the main areas of interest for this congress are:

- Solid Mechanics
- Fluid Mechanics
- Continuum Mechanics of Solids and Fluids
- Vibration and Dynamics
- Control

Top places to visit in Chile:

• Santiago

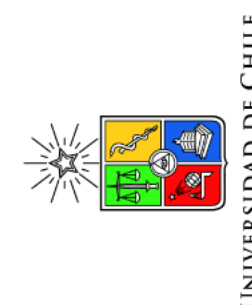

Santiago is the capital and economic centre of Chile. With its many museums, events, theaters, restaurants, bars and other entertainment and cultural opportunities, it is also the political and cultural center of the country. Its central location in the country makes it a great base for visiting other areas, and it is possible to ski in the nearby Andes and later be on the beach, all in the same day.

The industry of the wine one of the most recognized industries of Chile. There are many wine fields near of Santiago and it's a very interesting place to visit.

• Valparaíso

Valparaíso is located approximately 120km west of Santiago. The city is widely known for its bohemian culture, brightly colored houses, and beautiful seaside views. 'La Sebastiana', house of Pablo Neruda, it's an obligatory destiny during the stay in Chile.
